

SkyRunner™ Wireless Internet

means you don't have to be on cable TV or your phone line to get online.

Wireless Internet is the FAST, INEXPENSIVE way to get the service you want (cancel that extra phone line and use your phone for talking!)

Your Digital Partner, LLC's Two Internet Services

Wireless Internet

*The Fast and Easy way to
**BE connected and
STAY connected***

*for constant communication with family
or business —from the Mohican Area to
the World and back.*

Dial-Up Internet

*The moveable Internet service for
when you're out of range.*

++++Being **online all the time** means you can keep a running, typed conversation going with a friend, military person, or even your mom throughout the day, whenever you or they have time, without spending a fortune on long-distance. (If you want to use Instant Messenger™ Trillion™ or ICQ™, the program is free from the Web.) +++++

You may choose from
these ways to use
SkyRunner™ Internet.

1. Wireless to your site and wired inside your home or building.
2. Wireless to your site and wireless to your laptop computer anywhere in range (approx. 150 feet.) This option requires extra equipment.
3. Choose a faster or slower connection speed and only pay the assigned price for that speed. Commercial service is available at 384k at the same rate as residences.
4. Own or rent the receiver. To purchase the equipment, the cost is \$275.00 or \$92.00/mo for 3 mo. Purchasing the receiver saves you \$8.00/month on your Internet service.

SkyRunner™

Internet Service

for
the Mohican Area...
and Beyond.

Overview

SkyRunner™ Internet Service

from Your Digital Partner, LLC

—2 Types of service—

Never tie up your phone line again to browse the Internet!

- Wireless Internet

Wireless Internet offers you the increased connection speed to allow you to access the most amazing parts of web pages at a consistently lower cost than cable, it goes where cable doesn't,—AND you don't tie up your phone line to be online—even 24 hours/day. SkyRunner™ Wireless Internet comes in either low- or high-speed service. A reception survey must be done from your site to verify signal strength.

—OR—

Connect to the phone line at home or when traveling.

- Dial-up Internet

“Dial the USA” dial-up offers you the simplicity of using your computer's modem to dial into a phone line to access Internet service throughout the USA

without toll charges.

Prices

Get your Internet service the way you want it.

→ Make 1 of 3 Choices

Wireless Internet

56k—\$22.00/mo (suitable for E-mail or limited Internet surfing)

OR

384k—\$40.00/mo (best for surfing)

—OR—

Dial-Up

56k—\$19.95/mo, available almost anywhere

- These speeds are for downloads and uploads. With 384k, animations, music and video arrive quickly with little or no waiting.
- With wireless Internet, you're always online when the computer's on. You can use instant messaging like AOL Instant Messenger™, Trillion™ or ICQ™, to type live chat without long distance charges.
